## INTRODUCTION

This report presents information from the 1971 Census of Canada on the employment income of persons, 15 years and over, who reported that they worked one or more weeks in 1970, either full-time or part-time. Data are shown for Canada and the provinces by urban size groups, rural non-farm and rural farm and for census divisions by urban, rural non-farm and rural farm.

Average and median income figures in this report are calculated only for persons reporting employment income. Medians are calculated from more detailed group data than those shown in this report.

**Comparability with 1961 data:** Coverage in the 1961 Census was from a 20 p.c. sample of non-farm private dwellings only, and was exclusive of the Northwest Territories. In 1971 coverage was extended to include farm and collective dwellings and the Northwest Territories. The data from the two censuses are therefore not directly comparable.

The information in this report was collected on a 33 1/3% sample basis. Information on the sample and the weighting system can be found in the introductory report to this volume (see Catalogue No. 94-701).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

**Note:** Aggregate income calculated from these data should be used with caution as averages were calculated prior to rounding.

Ce bulletin présente des renseignements du recensement du Canada de 1971 sur le revenu de l'emploi des personnes de 15 ans et plus qui ont travaillé une semaine ou plus en 1970, soit à plein temps, soit à temps partiel. Au niveau du Canada et des provinces, les données sont présentées pour les régions urbaines par groupe de taille et les régions rurales non agricoles et rurales agricoles; au niveau des divisions de recensement, elles le sont pour les régions urbaines et les régions rurales non agricoles et rurales agricoles.

Dans ce bulletin, le revenu moyen et le revenu médian ne sont indiqués que pour les personnes ayant un revenu de l'emploi. Les médianes sont calculées d'après des données de groupe plus détaillées que celles présentées ici.

**Comparabilité avec les données de 1961:** Au recensement de 1961, les données étaient fondées sur un échantillon de 20 p. 100 des logements privés non agricoles seulement et excluaient les Territoires du Nord-Ouest. En 1971, le champ d'observation a été étendu aux logements agricoles et aux logements collectifs, ainsi qu'aux Territoires du Nord-Ouest. Les données des deux recensements ne sont donc pas directement comparables.

Les renseignements de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. On trouvera des renseignements sur l'échantillon et le système de pondération dans l'introduction de ce volume (voir la publication n° 94-701 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

**Nota:** Les chiffres du revenu total fondés sur ces données doivent être utilisés avec circonspection, car les moyennes ont été calculées avant l'arrondissement.

## DEFINITIONS

**Employment income:** Employment income refers to the total income received in 1970 as wages and salaries, net non-farm business or professional income (gross receipts minus expenses of operations) and net income from farm operations (gross receipts minus expenses of operations including depreciation).

**Urban:** Includes the population living in: (1) incorporated cities, towns and villages with a population of 1,000 or over; (2) unincorporated places of 1,000 or over having a population density of at least 1,000 per square mile; (3) the built-up fringes of (1) and (2) having a minimum population of 1,000 and a density of at least 1,000 per square mile.

**Rural:** Includes all the remaining population.

**Urban size groups:** Municipalities classed as urban under (1) and (2) above are classified by size groups according to their population. However, all municipalities (or parts) lying within the urbanized core of census metropolitan areas or other census agglomerations are allocated to the size group of the whole urbanized core.

**Rural farm population:** Includes the population living in dwellings situated on farms in rural areas. A farm, for census purposes, is an agricultural holding of one or more acres with sales of agricultural products of \$50 or more in the previous year. All persons living on such holdings in rural areas are classed as "rural farm" regardless of their occupation. Thus, the population living on "census-farms" would include some persons not connected with farming operations and who derive their income from non-agricultural pursuits. Conversely, it would exclude those farm operators and their families who do not live on their farm holdings (e.g., in a neighbouring town or village).

**Census Division:** Includes a variety of titles such as the administrative units of the provinces of Prince Edward Island, Nova Scotia, New Brunswick, Quebec and Ontario called "counties"; British Columbia's regional districts; Ontario's regional municipalities, territorial districts, district municipality and metropolitan municipality; and finally the use of the title "census division" itself, created by Statistics Canada in collaboration with the provincial governments of Newfoundland, Manitoba, Saskatchewan and Alberta, since these provinces do not possess administrative units comparable to the counties of other provinces. The few regional and district municipalities in Ontario were created by the Ontario Government beginning in 1969, while legislation forming the 29 new regional districts in British Columbia replacing the former 10 census divisions was completed in 1968.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 94-701). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

## DÉFINITIONS

**Revenu de l'emploi:** Le revenu de l'emploi est le revenu total reçu en 1970 sous forme de rémunération, de revenu net provenant d'une entreprise non agricole ou de l'exercice d'une profession pour compte propre (recettes brutes moins les dépenses d'exploitation) et de revenu net provenant d'une exploitation agricole (recettes brutes moins les dépenses d'exploitation, y compris l'amortissement).

**Régions urbaines:** La population des régions urbaines comprend la population des: 1) cités, villes et villages constitués de 1,000 habitants et plus; 2) localités non constituées de 1,000 habitants et plus ayant une densité de population d'au moins 1,000 habitants au mille carré; 3) banlieues bâties de 1) et 2) ayant une population minimum de 1,000 habitants et une densité d'au moins 1,000 habitants au mille carré.

**Régions rurales:** La population des régions rurales comprend tout le reste de la population.

**Régions urbaines par groupe de taille:** Les municipalités urbaines mentionnées en 1) et 2) ci-dessus sont classées selon le groupe de taille de leur population. Toutefois, toutes les municipalités (ou parties de municipalités) constituant le noyau urbanisé des régions métropolitaines de recensement ou des autres agglomérations de recensement sont classées dans le groupe de taille de l'ensemble du noyau urbanisé.

**Population rurale agricole:** La population rurale agricole comprend toutes les personnes occupant des logements de ferme situés dans des régions rurales. Aux fins du recensement, une ferme est une exploitation agricole d'une acre ou plus ayant vendu pour \$50 ou plus de produits agricoles au cours de l'année précédente. Toutes les personnes vivant dans une de ces exploitations situées dans une région rurale sont classées sous la rubrique "régions rurales agricoles", quelle que soit leur profession. La population des "fermes de recensement" comprend donc certaines personnes qui n'ont rien à voir avec l'exploitation agricole et qui tirent leur revenu de l'exercice d'activités non agricoles. En contrepartie, les exploitants agricoles et leur famille qui n'habitent pas leur exploitation agricole (par ex., ceux qui habitent une localité voisine) ne sont pas pris en compte.

**Division de recensement:** Cette désignation englobe divers titres tels que les unités administratives des provinces de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse, du Nouveau-Brunswick, du Québec et de l'Ontario, appelées "comtés"; les districts régionaux de la Colombie-Britannique; les municipalités régionales, les districts territoriaux, la municipalité de district et la municipalité métropolitaine de l'Ontario; et enfin, la "division de recensement" créée par Statistique Canada en consultation avec les gouvernements provinciaux de Terre-Neuve, du Manitoba, de la Saskatchewan et de l'Alberta, vu que ces provinces ne possèdent pas d'unités administratives comparables aux comtés des autres provinces. Les quelques municipalités régionales et de district de l'Ontario ont été créées par le gouvernement de l'Ontario à partir de 1969, tandis que la loi formant les 29 nouveaux districts régionaux en Colombie-Britannique en remplacement des 10 anciennes divisions de recensement a été finalement adoptée en 1968.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas connues au moment de la publication. Elles seront disponibles dans l'introduction de ce volume (n° 94-701 au catalogue). Les utilisateurs désireux de connaître ce renseignement avant la publication du bulletin d'introduction devront s'adresser au Service-utilisateurs du recensement.

## Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

### Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

### How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

### Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

### Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

### Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.
